Improve Barrier Properties and Performance in Paper and Packaging Technical Program

Cellulose nanomaterials can be incorporated into coatings and substrates like paper and plastic films to improve barrier properties and performance. Hear the latest technical advances in how cellulose nanomaterials are being added to commercial specialty papers, films and coatings to improve product performance at [TAPPI Nano 2017](#).

American Elements

Sponsor Spotlight

With more than 15,000 products in their catalog, American Elements is the world's largest metals and chemicals manufacturer devoted exclusively to advanced materials in industrial bulk and laboratory/research quantities. American Elements has expertise in the properties, applications, and manufacturing of advanced and engineered materials, including ultra-high purity refining and nanoscale materials.

More Networking Time at Nano 2017

New for 2017!

Expanded Lunches

A new feature for TAPPI Nano 2017 is an extended lunch. Longer lunches allow more time for networking with fellow participants. Your conference registration includes three lunches, each with a featured expert speaker. This two-hour daily session enables you to enjoy a meal with friends, both new and old.

[Register](#) by 10 May 2017 to secure the Early-Bird Registration Rate.

Poster Session and Student Poster Competition

Networking Events

Tuesday, 6 June, 2017

5:30 – 7:30pm

View more than 40 posters from students and scientists that feature technical advances in applications, characterization and other areas. Georgia Tech's Renewable Bioproducts Institute is again sponsoring the Student Poster Competition. As an attendee, you can vote on the student posters, and cash prizes will be awarded to the first and second place winners.

Student Committee Lunch

Just for Students

Monday, 5 June, 2017

12:30 – 2:00pm

All students are welcome to join the **Nano Student Committee Lunch** on the first day of the conference. Get to know the Student Committee and its leadership, learn about planned activities and how you can get involved. Can't attend this year? Be sure to keep up with the Nano Student Committee and follow them on Twitter! @TAPPINanoStdnts.

[Check out](#) all of the activities sponsored by the Student Committee.

Speakers: Register by 2 May 2017

Just for Speakers

Speakers: You must be registered by **Tuesday, 2 May 2017** to secure your spot in the technical program. If you do not register by 2 May, your presentation will be pulled from the program and a replacement speaker added. This provides this best value to attendees in that all presentations spots are filled.

A blue rectangular graphic with the text "2 May 2017" in white, indicating the registration deadline for speakers.

Webinars on Cellulose Nanomaterials: Free to Members!

From the TAPPI Nano Division

The TAPPI Nano Division hosts several webinars throughout the year. These webinars are recorded and available 24/7 to members. Topics include rheology, emulsions, composites, barrier properties and much more. To see a list of what's available, follow the link below and choose the "Nanotechnology" on the left side under "Industry".

[Search](#) TAPPI's catalog of over 70 webinars featuring topics in nanotechnology, nonwovens, tissue production, flexible packaging and more.

[Register Now](#)

Registration is now open.

Be sure to register by 10 May 2017 to receive the early bird discount.
